

Starting a Goat Farm

The below list are items you would ideally want in place prior to getting goats

- ☐ 4 foot or higher weaved livestock fence (5' tall for taller goats like the Saanen)
- ☐ water bucket or trough (depends on herd size)
- ☐ Hay
- ☐ Straw for bedding
- ☐ Storage area for straw and hay
- ☐ Approximately 25 sq ft well ventilated area per goat for housing
- ☐ Approximately 135 sq ft area for outdoor space per goat
- ☐ mineral feeder
- ☐ bicarbonate sodium
- ☐ loose minerals (I use Sweetlix)
- ☐ livestock thermometer
- ☐ drenching syringe
- ☐ hay feeder
- ☐ fine tined rake and shovel for goat poop
- ☐ wheelbarrel
- ☐ hoof trimmers
- ☐ stanchion table
